

LOWARA PUMPS

SV

Vertical multistage centrifugal pumps

Highly reliable and technologically advanced multipurpose pumps capable of satisfying the needs of a wide variety of users. Many different construction designs are available, with models featuring 2-4-8-16-33-46-66-92 m³/h nominal capacities.

Specifications

- Delivery: up to 120,00 m³/h
- Head: up to 330,0 m
- Power supply: three and single-phase 50 Hz
- Power: up to 45,00 kW
- Maximum operating pressure: 40,0 bar
- Temperature of pumped liquid: from -30,0 °C to 120,0 °C
